EX PARTE QUAYLE ACTION

1. This application is in condition for allowance except for the following formal matters:

The original patent, or a statement as to loss or inaccessibility of the original patent, must be received before this reissue application can be allowed. See 37 CFR 1.178.

Appropriate corrections are required.

Allowable Subject Matter

2. Claims 13 and 17 are allowed.
3. The following is a statement of reasons for the indication of allowable subject matter:

The invention as claimed in applicant's independent claims 13 and 17 when considered as a whole, the exact arrangement of parts and/or the inter connections and functions, is not taught nor suggested by the prior art made of record.

With regard to independent claim 13, the prior art of record does not teach or fairly suggest the claim feature, "wherein the method advances to the third step after at least a first delay time has elapsed following the second step", in combination with all the other limitations of the claim as illustrated in applicants figures 1 and 4.

With regard to independent claim 17, the prior art of record does not teach or fairly suggest the claim feature, "a display controller that is responsive to the supply of a logic power voltage (Vcc) to output a forced blank display signal (/DFF) as active (t0) and to output the forced blank signal (/DFF) as non-active after the elapse of a first delay time (t1) subsequent to the supply of the logic power source voltage;", in combination with all the other limitations of the claim as illustrated in applicants figures 1 and 4.

The closest prior art of record Inoue et al. (5,952,290) which does not teach the above stated features.
